Repairing of watches, clocks and jewelry specialty.

## DIED SUDDENLY ON WAY HOME.

**Miss Sarah McKean Stricken in Stockton after Finishing Her First Term as School Teacher.**

In the death of Miss Sarah McKean, daughter of Mr and Mrs R. O. McKean, residents of above Volcano, we have to chronicle a peculiarly sad and untimely occurrence, which has imparted a shock to the eastern section of the county, where the young lady was so widely known and highly esteemed.

Deceased had just completed her first term at school teaching at Key-stone district in Tuolumne county. She was on her way home to Amador county, but remained over in Stockton with a sister and brother, who were attending the Western School of Commerce in that city. It was the intention, as soon as the business college term expired that a reunion of the members of the family would be held there, and all would return home together. This gathering was being looked forward to with fond anticipations by all concerned. But, alas, instead of a time of joyousness, it was turned into a scene of mourning by the intrusion of death. Deceased had complained of not feeling well for several days but little was thought of it, as she continued to be around as usual. Wednesday, however, the sickness assumed a serious form and the parents were notified of the alarming symptoms. In a short time after the receipt of this message the news came to them that she had passed from the land of the living.

The father came down Saturday from above Volcano to meet the remains at Martells station, to convey them home. The funeral took place at Volcano the following day, and was largely attended. The deepest sympathy is felt by the whole community for the afflicted family in the loss that has so suddenly befallen them.

Besides the parents, deceased leaves four sisters, namely, Mabel, Albertine, Flora, Jessie, and one brother, William, to mourn her untimely end, on the threshold of womanhood.

**You Never Can Tell**  
just exactly the cause of your rheumatism, but you know you have it. Do you know that Ballard's Snow Liniment will cure it—relieves the pain—reduces the swelling and limbers the joints and muscles so that you will be as active and well as you ever were. Price 25c 50c and \$1. Sold by Kuhser's City Pharmacy.

## Finger Amputated.

Tom Ball, while working in the Zeila mine some six months ago, had his hand severely crushed. He worked for a day or so thereafter, but the pain became so great that he sought a doctor. The third finger of the left hand was broken in two places, and the hand lacerated otherwise. For three months he was under the doctor's care here. When on the road to complete recovery he concluded to return to his native land, England. He left here for that purpose about two months ago. Word has reached his relatives here that soon after reaching England, the broken finger had to be amputated.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.  
Address, F. J. Cheney & Co., Toledo, O.  
Sold by Druggists, 75c.  
Hall's Family Pills are the best.

## Take Ride to Tabeau.

Wednesday morning a party of ten or twelve from Martells station drove in the I. & E. bus to Lake Tabeau. They left the station after the train had pulled in. Lawrence White of Amador City, holding the ribbons. In the party were Mr and Mrs McPherson and family, Mr and Mrs J. Thomas, Mr and Mrs Lamar of Oakland, and Miss Ferril of Lodi, who is visiting with McPhersons, and Jack Coffman. They passed through town about nine o'clock, and returning reached here about four, so as to be at the station in time for the train. They spent the time strolling about the lake and rowing.

Pioneer flour is the best; have no other.

## MINING NOTES.

**Amador Queen.**—J. R. Phillips, the owner of this property in Murphy's gulch, we are informed has renewed three lease held by the present lessees for another year. Matteo Thomas and others are the lessees. They have been operating the mine for some time, mainly hunting for pockets, for which the claim is noted. It is presumed they have done very well, as they were very anxious to secure a renewal of the leases.

**Central Eureka.**—At a meeting of the board of directors of the Central Eureka mine near Sutter Creek, held within the past few weeks it was decided to reopen the mine. Operations will be started on the first of the month, when probably about twenty men will be put to work. The work for the present will be confined to the old shaft, repairing it to the bottom, when the management expects to sink. It will take some months to put the property in working shape, as the mine was practically abandoned a few months ago, even the pillars taken out, as they carried some of the best rock in the mine. E. C. Voorheis will have charge of the work. An assessment of 2 1/2 cents per share has been levied on the capital stock delinquent July 25.

## Jackson Defeated for First Time.

Last Sunday the baseball team from Diamond Springs, El Dorado county, defeated the Jackson nine on the local grounds by the score of 7-2. This is the first time that the Jackson boys have been defeated during the season. The local boys fell down in the first few innings, and by a series of fumbles and wild playing allowed the visitors to pile up six runs. After that they held themselves together so that Diamond could only score one more run near the end of the game. Other than the first part of the game it was very even. The Diamonds are by far the best team that Jacksons have bucked up against, being a collection of the best players from different parts of our neighboring county, while they picked up a couple as they passed through Amador City. The Jacksons will probably play them a return game in the near future. Next Sunday they will travel to Mokelumne Hill.

The club had advertised that there would be a balloon ascension after the game, but for some reason it did not materialize, but instead some vaquero did some stunts with his horse. Not a few of the spectators were drawn by the reason that they expected a balloon ascension.

Last Saturday night the athletic club gave a dance in Love's hall for the benefit of the club. The music was furnished by the Mokelumne Hill orchestra of six pieces.

## Died From Cancer.

George C. Schneider, an uncle of Chris Meiss, the stage driver of Jackson, died at the Sutter Creek sanitarium on Monday afternoon. He was for many years a resident on the Meiss place in the vicinity of Forest Home. He had been sick for a long time, and came to Jackson several weeks ago to stay with his nephew, in the hope that the change of air and scenery would prove beneficial. But no improvement came. Some three weeks ago he was removed to Sutter Creek, to be treated at the sanitarium of Dr. Goodman. His case was diagnosed as internal cancer, and little hope was held out. A capital operation might afford temporary relief, but that was regarded as a doubtful problem. However, the patient grasped at this slender hope, and insisted upon undergoing surgical operation. The cavity was opened on Monday, when it was found that the cancer involved the vital organs of the stomach, including the liver, and that it was impossible to attempt its removal with any chance of success.

Deceased was about 50 years of age, brother of the late Mrs C. Meiss. The funeral was held on Wednesday, under the auspices of the Odd Fellows order, deceased being a member of the lodge at Amador City. Interment was in the cemetery at Drytown.

## A DRUGGIST'S SAD END.

**V. Kahn, of San Francisco. Dies From the Drug Habit. After Brief Stay in Jackson.**

V. Kahn, a druggist from San Francisco, was employed as assistant in the F. W. Kuhser's pharmacy on Saturday, June 13. He was well recommended by dealers in drugs in San Francisco, and proved well posted in all the details of his profession. Indeed, he seemed a bright man otherwise, being well informed generally. We gave a brief item announcing his death on Friday last just as we were putting the Ledger forms to press, but the case demands a more extended notice.

It seems he came to Jackson under engagement of Mr Kuhser on Saturday, June 13. He was not known here personally, and was employed solely on recommendation of others. He started to work Sunday, and displayed an aptitude that argued well for his thoroughness. He engaged a room at the Francis' residence on Broadway. Everything went satisfactory until Tuesday, when it is reported he evidently, toward evening, started out on a drinking spree. That night he could not locate his rooming place and called at several residences on Broadway before he got the right one. Wednesday morning he showed up at the drug store apparently all right. About ten o'clock he repaired to the storeroom in the rear of the main store to fix up the diamond dye case. He was missing several hours, supposed to be working on this job. Finally Mr Kuhser, during the afternoon, went to the room and found him in a deep drunken slumber. A bottle of grain alcohol was beside him, about half emptied of the spirits.

That night between nine and ten o'clock, Mr Kuhser paid him the salary coming to him, and discharged him. He wanted another trial, but this was refused as useless. That was the last he saw of him alive. He paid him ten dollars when he discharged him.

Between one and two o'clock Thursday morning he went to the Louvre saloon and called for a glass of beer. Nightwatchman Parker happened to be there at the time eating his lunch at the restaurant counter. After disposing of the beer he inquired of the bartender where he could get a bed, and was referred to the nightwatchman. He was not drunk, but it could readily be seen that he had been imbibing. He was taken to the Globe hotel, and placed in room 4, and paid for his room. He explained that he had a room on Broadway, but did not want to disturb the occupants at that hour; he had been there, but could not open the door.

It appears that he kept in his room all day Thursday, refused to eat anything. Friday morning about eleven o'clock, one of the attendants at the hotel, in passing his room heard a groan. Looking in he found Kahn lying in a peculiar way between the mattress and wall. He reported that the man was sick. He started to get him some soup. On returning Kahn was found in what was thought to be a fit. It was evidently the death struggle. Dr. Gall was summoned and got there about a quarter to 2. The patient had crossed the dividing line between life and death before he entered the room.

The sheriff was notified, also the coroner. In the deceased's pockets were found \$9.05, also watch and chain, eyeglasses and a pocket knife. Also in his coat pocket there was found an ounce bottle of cocaine, half full of the drug. And in the room there was an empty alcohol bottle. There is little doubt that the victim had during his stay in the room partaken of both deadly drugs. The cocaine bottle was at the corner's inquest, identified by Mr Kuhser as one that had been taken from his drug store. He missed it from the shelf Thursday. When he last saw it, it was three quarters full of the drug. About sixty grains had been used since it was abstracted from the store. This would be sufficient to kill a number of ordinary men, and was a dangerous quantity for one addicted to the habit to consume in so short a time.

Coroner H. E. Potter came over Saturday, and decided to hold an inquest. The following jurors were sworn to examine into the matter: H. E. Kay, W. M. Penry jr., A. Kickett, C. E. Reynolds, C. Giovannoni, C. Tam, T. Lemm and Richard Webb. The only mark upon the body was a slight abrasion over the left eye, a mere scratch, produced probably by a fall. It was noticed

## Church Notes.

On Sunday June 28 services will be conducted at the Methodist Episcopal church as follows: The pastor will preach in the morning on "The duty of self-denial," and in the evening on "The land we love." Sunday school at 2 o'clock. Prayer meeting Wednesday evening.

The official board of the Methodist church will meet at the church on Tuesday evening June 30th. We desire to see all the officials of the church present. All interested in church work are cordially invited to be present.

## EPISCOPAL.

Regular services will be held in St. Augustine's Episcopal church as follows:  
11 a. m.—First and third Sunday in each month.  
7:30 p. m.—Second and fourth Sunday in each month.

## Return From Fishing Trip.

Early Sunday morning, the fourteenth, Gus Laverone, Chub Green, C. Ragne, and John Juizi left for Silver Lake to try their luck at fishing. They left here at one o'clock in the morning, and arrived there at about four Monday afternoon, staying over night at Ham's station. Returning, they left there at four o'clock Tuesday morning and arrived here about the same time Wednesday morning, stopping for a few hours at Ham's. They report that trout in the lake are very plentiful, and easy to catch. They brought back the limit the law allows, which is fifty fish each. Last Saturday they struck out for Kirkwood's camp, which was just over the ridge from where they were camped, but before they arrived there a thunder storm broke and drenched all of them.

Never can tell when you'll mash a finger or suffer a cut, bruise, burn or cold. Be prepared. Dr. Thomas' Electric Oil instantly relieves the pain—quickly cures the wound.

## PUT TRIED REPUBLICANS ON GUARD.

We are heartily in sympathy with the policy of the organization republicans in barring Francis J. Heney from the list of speakers at the ratification meeting in San Francisco on Saturday. He was properly excluded on the ground that he was not a republican, or too recent a convert to be invited to take such a prominent part in party affairs. The Lincoln-Roosevelt faction wanted him to speak, certainly not because of the stalwart brand of his partyism, but because of his active support of the efforts of the disgruntled wing to get control of the party's affairs. His backing came from the graft prosecution gang, and while this is not to his discredit, it affords no reason why one of heretofore democratic affiliation should be thrust to the foreground in the republican campaign, especially when his efforts have so far been directed toward creating dissension in party rather than otherwise. But Heney was given an opportunity to air his republicanism at the ratification meeting in Stockton the other night. He took occasion to explain his change of front politically in the following language, as reported in the local papers:

For 20 years after the civil war the 'bloody flag' was waved by all republican campaign orators. It seemed that the strife would never end if the politicians could get into office by continuing it. I felt that there was no reason why the south and the north should not be united. I had confidence enough in the people to feel that the union would be preserved. I was convinced that the best way to unite the country for evermore was to elect a democratic president, thereby convincing the skeptical ones that the war was over, and that all sections were loyal to the flag. I urged Cleveland's election, and his administration proved that the war had ceased. Since the reasons I had for following the democracy have ceased I am no longer a democrat. I am a Roosevelt republican.

Such so-called reasons are unworthy the intellect of a schoolboy. There is a woful absence of reason in the statement, and if he had left it unsaid thinking republicans would have conceived a much better explanation of his change of political base than the one invented for the occasion by himself. Indeed, the statement carries its own refutation. The war has been over for more than 43 years, and the flaunting of the gory flag has ceased for more than 20 years, according to his own admission. It does not appear that Heney ever posed as a defender of the republican faith until within the past few months. Are we to infer that it took him all these years to make up his mind to break loose from his former political moorings. It is noticeable that he was not geared up to the change-about point until after his appointment to a lucrative position as public prosecutor under the present republican administration. Furthermore, the fact that, since he became a Roosevelt republican—whatever that may mean—his efforts have been directed toward factional strife in the party of his long-delayed adoption, does not tend to inspire the confidence of the masses of republicans in the sincerity of his devotion to his newly-found party. He stayed with the democrats, he says, because the republicans failed to forget the issues involved in, and growing out of, the mighty struggle for the preservation of the union as quickly as his peace-loving spirit believed they should have done. As a democrat he was a waver of the olive branch. As a republican he has been a persistent advocate of war, taking advantage of every opportunity to fan the flames of dissension and factional warfare within the republican camp. He seems to be a Roosevelt-leaguer for the purpose of trying to unseat the republican regulars from the control of the party organization in this state, and that too when the party managers have thus far in this canvass evinced a disposition to avoid any cause for discontent by a liberal and conciliatory course. We can admire tried and true party men who from unselfish motives work for reform within the party lines. But when a democrat flops into the camp under the plea of reformation, that is quite another thing. Listen to Heney's elucidation of political issues:

The tariff is, as Bancroft said, but a local issue.

Such a statement coming from democratic lips was ridiculed to death twenty years ago. Let us hope Heney will be invited to stick to law business, so far as the republican side is concerned, for the balance of the campaign.

How a Hat is Sized.  
 G. writes that the size of a hat is calculated on a curious principle. It is the length plus the breadth divided by 2. Thus a head 8 1/4 inches long and 5 1/4 inches broad would require a hat size of 14 1/4 divided by 2, which is 7 1/4—Gladstone's size.

Your correspondent G. is perfectly right in his description of the curious way in which the size of a hat is obtained, writes G., but his sample dimensions are slightly misleading. Such an "oval" as 8 1/4 inches by 5 1/4 inches would scarcely be met with twice in a lifetime. The normal difference between the length and width (technically called the "oval") is invariably through the gamut of sizes 1 1/2 inches. Thus an ordinary 6 3/4 hat would measure 7 1/2 inches long and 6 inches wide and a 7 1/4 (four sizes bigger) 8 inches long and 6 1/2 inches wide. The longest head I have measured in many thousands was 8 1/4 by 7 1/4, which is the equivalent of a 2 1/4 inch oval. Needless to say, the inside of the hat was the shape of a canalboat. — Manchester Guardian.

## It Did Not Work.

Mrs. Billings was installing the new cook, a maiden from Finland, to whom the kitchen contrivances of America were new and wonderful. "This, Ina," said the lady, indicating a perforated wooden board that hung against the kitchen wall, "is the order list. See, it says 'butter, eggs, sugar, coffee, tea, molasses'—everything that we need to eat. Whenever we are out of any of these things all you need to do is to place one of these little pegs in the hole opposite the name and the things will be ordered."

Mrs. Billings is not a methodical housekeeper. There were several consecutive days when she completely forgot the existence of the order list in the kitchen, but Ina labored with it faithfully.

"Measies," pleaded Ina, after struggling with the order board for three days, "I tank dose board must be out of order. I push dose peg in just so far as I can, but nothing will come—no egg, no butter, no nottings."—Youth's Companion.

## The Voice and the Phonograph.

A vaudeville monologue man met a friend in a Broadway car. After they had talked awhile the friend said:

"I've been conscious ever since we began to talk of some change in you, but I couldn't make out what. I know now. It is your voice. You speak so much more distinctly than you used to."

"That is because I have been talking into a phonograph," said the vaudeville performer. "The surest remedy on earth for slovenly speech is to hear a little lecture of your own rolled off a phonograph record and find that about half the words have been pronounced in direct opposition to Webster and all the rest of the authorities. That was my experience. I practiced for two months hard before I could improve a speech that had been good enough for the theater up to the point where it would pass muster in a talking machine."—New York Sun.

## A Curious Ear.

The catfish uses his lungs as an organ of hearing. The needless lung becomes a closed sac filled with air and commonly known as the swim bladder. In the catfish, as in the suckers, chubs and most brook fish, the air bladder is large and is connected by a slender tube, the remains of the trachea, to the esophagus. At its front it fits closely to the vertebral column. The anterior vertebrae are much enlarged, twisted together, and through them passes a chain of bones, which connects with the hidden cavity of the air. The bladder therefore assists the ear of the catfish as the tympanum, and its bones assist the ear of the higher animals. An ear of this sort can carry little range of variety in sound. It probably gives only the impression of jars or disturbances in the water.

## More About Crusoe.

Robinson Crusoe had just discovered human footprints on his island. He followed them up. They led him to a knoll overlooking the sea on which somebody had put up a billboard with this inscription painted upon it:

Use Bunk's Pills  
 For All Liver Troubles.  
 25 Cents a Bottle.

Owing to the avarice and greed of the publishers, however, who refused to incorporate this incident in the story unless paid regular advertising rates, it was omitted, and the book went to press in the garbled and incomplete form with which the reading public is familiar.—Chicago Tribune.

## The First Monotheists.

So far as we know, the Egyptian priests were the first monotheists. There existed in Egypt two kinds of religious teaching, the "exoteric" and the "esoteric," that for the masses of the people and that for the select few, the little company of the "wise." The masses were polytheists, believing in a multitude of gods, while the few believed only in one god, of whom Osiris, head of the popular deities, was but a weak reflection.—New York American.

## Stands For Many.

Boy—Cow is a noun, feminine gender, third person singular, and stands for Mary.

"Stands for Mary?" asked the master in astonishment.

"Yes, sir," responded the urchin, with a grin, "for if the cow didn't stand for Mary how could Mary milk the cow?"—London Express.

Some family trees seem never to bear anything but lemons. — Dallas News.

## My Hair Ran Away

Don't have a falling out with your hair. It might leave you! Then what? That would mean thin, scraggly, uneven, rough hair. Keep your hair at home! Fasten it tightly to your scalp! You can easily do it with Ayer's Hair Vigor. It is something more than a simple hair dressing. It is a hair medicine, a hair tonic, a hair food.

The best kind of a testimonial—  
 "Sold for over sixty years."  
 Made by J. C. Ayer & Co., Lowell, Mass.  
 Also manufactured at  
**Ayer's** SASSAPARILLA, PILLS, CHERRY PECTORAL.

## Amador County Descriptive Article

Amador county comprises an area of 548 square miles. It lies on the western slope of Sierra Nevada mountains, and embraces within its territory all the diversity of valley, foothill, and high mountainous lands.

**Climate.**—The climate of the populous portions of the county is as genial and healthful as can be found anywhere in California. As climate is one of the most valuable assets of this favored state in attracting population, Amador stands second to no county in this regard. It should, and no doubt will in time, when its climatic advantages are more thoroughly understood and appreciated, become a health resort not only for those in less favored states, but for the residents of other parts of California. The temperature alone the central portion rarely falls below 30 degrees above zero in winter, and as rarely rises to 100 degrees in the summer. Snow seldom falls in the settled districts, and never remains on the ground for more than a few hours. Of course, in the high mountain regions of eastern Amador the snowfall is very heavy—which is characteristic of the entire Sierra Nevada range. The summer season is always accompanied with cool nights; permitting of sound, refreshing slumber. Fogs are rare, cyclones are unknown, thunderstorms are infrequent.

**Gold Mining.**—The county, although rich in other sources of wealth, comparatively untouched, is noted principally for her quartz mines. The deepest gold mines in America are located here. The Kennedy mine is now taking gold in liberal quantities from quartz extracted from a depth of over 3000 feet below the surface, with every indication that the pay-ore extends to a much greater depth. Since the discovery of gold, the county has contributed fully \$100,000,000 to the world's supply of the precious metal. The mines are still yielding at the rate of about two million dollars annually. Nearly all of this wealth is produced by eight or ten mines operating on what is called the "mother lode," stretching clear across the county in a north-easterly direction a distance of twenty miles. The mines aggregate between 400 and 500 stamps, and furnish employment for over 1000 miners. This industry is still in its infancy. The unexplored territory, even along the main gold belt, is far in excess of the ground that has actually been worked or prospected. The county offers to-day one of the most inviting fields to be found anywhere in the world for the investment of capital in the fascinating business of gold mining, not alone along the mother lode, but also in the almost untouched mineralized country of the east belt, some ten or twelve miles from the main lode.

Besides gold, we have copper, deposits of pottery, coal, marble, slate, limestone, granite, and soapstone or talc—all undeveloped.

**Agricultural Capabilities.**—The agricultural possibilities equal, if not excel, the mineral riches. The valley lands will produce anything that can be grown in the most favored sections. In the foothill lands all kinds of deciduous fruits thrive; also all kinds of vegetable are raised where irrigation is practicable along the numerous water courses. Further up in the mountains, at an altitude of 2000 to 2500 feet, the soil is admirably adapted for apples and potatoes. A ready market for many times the quantity now raised of these commodities can be found in the various mining towns.

Grape culture and winemaking are becoming important industries, both the grapes and wine commanding a better price than the product of the lowland.

Land is cheap compared with other California lands. Improved farms may be secured for one-fourth the price current in some places. Unimproved lands can be had from \$5 to \$10 per acre. It does not require a fortune to buy a small ranch. There is room for a large addition to our agricultural population. Vast tracts now devoted to cattle ranges might be made the homes of hundreds of prosperous farmers.

Amador has a population of less than 12000. Three fourths of this is concentrated in a strip of three miles above and below the mineral belt.

Jackson, the county seat, has about 2500 inhabitants, and is an incorporated city of the sixth class. Other towns are Sutter Creek, Amador City, Drytown, Plymouth, Volcano, Pine Grove and Oleta. Ione City is the metropolis of the valley section, a thriving town of 1000 inhabitants.

The community is law-abiding. Educational facilities are excellent. A schoolhouse is within easy reach of nearly every family. There is one high school, located at Ione.

The assessment roll for 1907 is \$5,-800,793, and the tax rate for both state and county purposes \$2 on the \$100.

The Southern Pacific has a branch railroad running to Ione. From this point the Ione and Eastern railroad extends 14 miles further to the mining section.

The various religious denominations, and fraternal organizations are well represented.

The power plant of the Standard Electric Co.—one of the largest in the world—is located four miles from Jackson.

## REPUBLICAN PLATFORM AS FINALLY ADOPTED

Once more the republican party, in national convention assembled, submits its cause to the people. This great historic organization that destroyed slavery, preserved the Union, restored credit, expanded the national domain, established a sound financial system, developed the industries and resources of the country and gave to the nation her seat of honor in the councils of the world, now meets the new problems of government with the same courage and capacity with which it solved the old.

### Republicanism Under Roosevelt.

In this, the greatest year of American advancement, the republican party has reached its highest service under the leadership of Theodore Roosevelt. His administration is an epoch in American history. In no other period since national sovereignty was won under Washington or preserved under Lincoln has there been such mighty progress in those ideals of government which make for justice, equality and fair dealing among men. The highest aspirations of the American people have found voice. Their most exalted servant represents the best aims and worthiest purposes of all his countrymen. American manhood has been lifted to a nobler sense of duty and obligation. Conscience and courage in public station and higher standards of right and wrong in private life have become cardinal principles of political faith; capital and labor have been brought into closer relations of confidence and interdependence; and the abuse of wealth, the tyranny of power and all the evils of privilege and favoritism have been put to scorn by the simple, manly virtues of justice and fair play.

The great accomplishments of president Roosevelt have been first and foremost a brave and impartial enforcement of the laws; the prosecution of illegal trusts and monopolies; the exposure and punishment of evildoers in the public service; the more effective regulation of the rates and the service of the great transportation lines; the complete overthrow of preferences, rebates and discriminations; the arbitration of labor disputes; the amelioration of the wage-workers everywhere; the conservation of the natural resources of the country; the forward step in the improvement of the inland waterways; and always the earnest support and defense of every wholesome safeguard which has made more secure the guarantees of life, liberty and property.

These are the achievements that will make for Theodore Roosevelt his place in history, but more than all else the great things he has done will be an inspiration to those who have yet greater things to do. We declare our unflinching adherence to the policies thus inaugurated, and pledge their continuance under a republican administration of the government.

### Equality of Opportunity.

Under the guidance of republican principles the American people have become the richest nation in the world. Our wealth today exceeds that of England and all her colonies, and that of France and Germany combined. When the republican party was born the total wealth of the country was \$16,000,000,000. It has leaped to \$110,000,000,000 in a generation, while Great Britain has gathered but \$60,000,000,000 in 500 years. The United States now owns one-fourth of the world's wealth and makes one-third of all modern manufactured products. In the greatness of civilization, such as coal, the motive power of all activity; iron, the chief basis of all industry; cotton, the staple foundation of all fabrics, wheat corn and all the agricultural products that feed mankind, America's supremacy is undisputed. And yet her great natural wealth has scarcely been touched. We have a vast domain of 3,000,000 square miles, literally bursting with latent treasure, still waiting the magic of capital and industry to be converted to the practical uses of mankind; a country rich in soil and climate, in the unharnessed energy of its rivers and in all the varied products of the field, the forest and the factory. With gratitude for God's bounty, with pride in the splendid productiveness of the past, and with confidence in the plenty and prosperity of the future, the republican party declares for the principle that in the development and enjoyment of wealth so great and blessings so benign there shall be equal opportunity for all.

### The Revival of Business.

Nothing so clearly demonstrates the sound basis upon which our commercial, industrial and agricultural interests are founded, and the necessity of promoting the present continued welfare through the operation of republican policies as the recent safe passage of the American people through a financial disturbance which,

if appearing in the midst of democratic rule or the menace of it, might have equalled the familiar democratic panics of the past. We congratulate the people upon this renewed evidence of American supremacy and hail with confidence the signs now manifest of a complete restoration of business prosperity in all lines of trade, commerce and manufacturing.

### Recent Republican Legislation.

Since the election of William McKinley in 1896 the people of this country felt anew the wisdom of entrusting the republican party through decisive majority with the control and direction of all national legislation.

The many wise and progressive measures adopted at recent sessions of congress have demonstrated the patriotic resolve of republican leadership in the legislative department to keep step in the forward march to better government.

Notwithstanding the indefensible filibustering of a democratic minority in the house of representatives during the last session many wholesome and progressive laws were enacted, and we especially commend the passage of the currency bill, the appointment of a national monetary commission; the employers and government liabilities laws; the measure for the great efficiency of the army and navy; the widows' pension bill; the child labor laws for the District of Columbia; the new statutes for the safety of railroad engineers and firemen and many other acts conserving the public welfare.

### Republican Pledges for Future.

The republican party declares unequivocally for a revision of the tariff by a special session of congress immediately following the inauguration of the next president and commends the steps already taken to this end in the work assigned to the appropriate committees of congress which are now investigating the operation and effect of existing schedules. In all tariff legislation the true principle of protection is best maintained by the imposition of such duties as will equal the difference between the cost of production at home and abroad, together with a reasonable profit to American industries. We favor the establishment of maximum and minimum rates to be administered by the president under limitations fixed in the law, the maximum to be available to meet discriminations by foreign countries against American goods entering their markets and the minimum to represent the normal measure of protection at home, the aim and purpose of the republican policy being not only to preserve, without excessive duties, that security with foreign competition which American manufacturers, farmers and producers are entitled, but also to maintain the high standard of living of the wage earners of this country, who are the most direct beneficiaries of the protective system. Between the United States and the Philippines we believe in a free interchange of products with such limitations as to sugar and tobacco as will afford equal protection to domestic interests.

### Currency Measures Approved.

We approve the emergency measures adopted by the government during the recent financial disturbance and especially commend the passage by congress at the last session of the law designed to protect the country from a repetition of such a stringency.

The republican party is committed to the development of a permanent currency system responding to our greater needs, and the appointment of the national monetary commission by the present congress, which will impartially investigate all proposed methods, insures the early realization of this purpose. The present currency laws have fully justified their adoption, but an expanding commerce, a marvelous growth in wealth and population, multiplying the centers of distribution, increasing the demand for movement of crops in the west and south, and entailing periodic changes in monetary conditions, disclose the need of a more elastic and adaptable system. Such a system must meet the requirements of agriculturalists, manufacturers, merchants and business generally, must be automatic in operation, minimizing the fluctuations in interest rates, and above all must be in harmony with that republican doctrine which insists that every dollar shall be based upon and as good as gold.

### Postal Savings Banks.

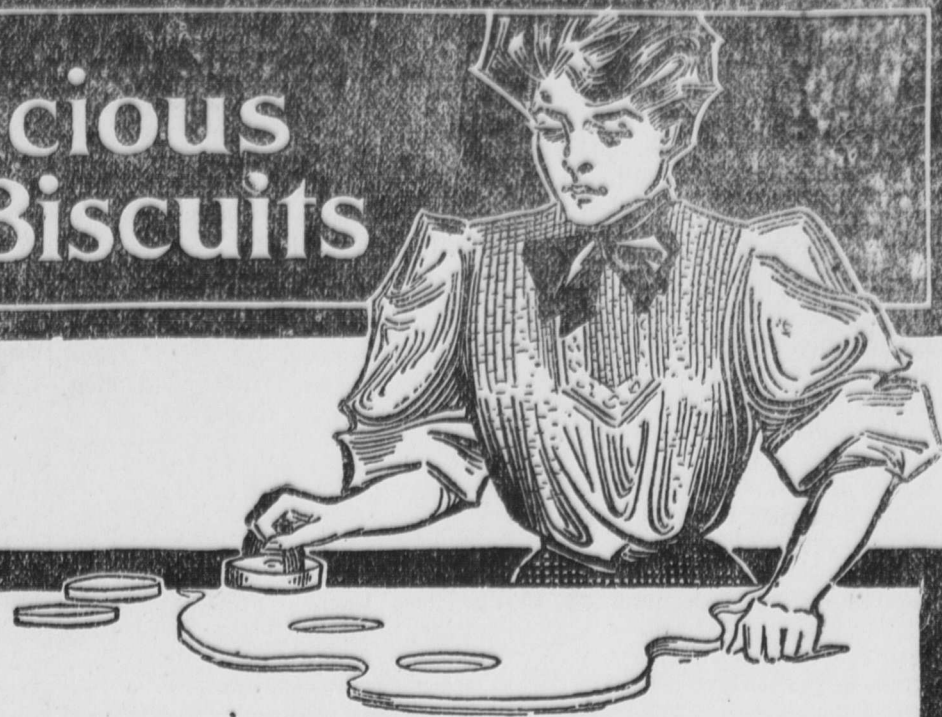

We favor the establishment of a postal savings bank system for the convenience of the people and the encouragement of thrift.

### Trust Laws Enforced.

The republican party passed the Sherman anti-trust law over democratic opposition and enforced it after democratic dereliction. It has been a wholesome instrument for good in the hands of a wise and fearless administration.

(Continued on page 6.)

## Delicious Hot-Biscuits

On every home table there may be served every day a plate of pure, healthful, delicious hot-biscuits by following the "CLEVELAND" Cook. There is no economy in saving a few cents by using Alum Baking Powders. The cheap alum baking powders work sure injury to the health. Enjoy the purest of home cooking by using

## CLEVELAND'S SUPERIOR BAKING POWDER

Made from a Superior grade of Pure Cream of Tartar.

### His Card.

Mr. Newrich, the dust contractor, having made a fortune, part of which he had invested in house property in the east of London, wished to rise, like a phoenix, from his ashes into some sort of society. His golden key, applied to the coffers of an impecunious aristocrat, opened the way.

His new friend, among other things, advised him that visiting cards were a necessity, and, as a guide to drawing him up ready for the printer, handed him one of his own, which read, "Harold De Vere, Iona House, Portsmouth Square, W."

Two days later, as De Vere was sitting in his dressing room at breakfast, a servant brought in on a salver a visiting card bearing the following: "Ephraim Newrich, I Own 23 Houses, London, E."—Philadelphia Ledger.

### Pepys's Kiss.

For more than two centuries the body of Katherine of France, Henry V.'s queen, uncovered in the building of Henry VII.'s chapel, was one of the sideshows seen by every visitor to the abbey. Pepys, indeed, records that on Shrove Tuesday, 1669, he "had the upper part of her body in my hands and did kiss her mouth, reflecting upon it that I did kiss a queen."—P. P.'s London Weekly.

### A Little Matter Among Friends.

Two boys were in fighting attitude, like bantams. Another and a smaller one stood watching them, wiping his eyes, sobbing the while. "What did yer hit him for?" said one.

"Tain't none of your business."

"Yes, it is. He's my friend."

"Well, he's my friend too." — New York Globe.

### Apples For Health.

A correspondent writes to ask us what he should do when his doctor says him more visits than are necessary. We would remind our correspondent of the old saying:

An apple a day

Keeps the doctor away.

But the apple must, of course, be well aimed.—Punch.

### His Merit Card.

Mother (surprised) — Why, Johnny, how did you happen to get the merit card for good behavior at school this week? Small Johnny—It was like this, mamma. Harry Jones won it, and I told him if he didn't give it to me I'd punch him.—Hebrew Standard.

### The Change.

Reddy (putting down a gold piece)—Ticket for Del Monte. Ticket Clerk—Change at Castrolville if you take this train. Reddy—I'll wait, then, for I want my change right here, uncle.—Monte Carlo Gossip.

### The Dusters.

The Vicar (to sexton)—Why don't you see that the seats in the church are dusted now and then, Tombs? Tombs (to sexton)—I do, sir; the congregation does it every Sunday morning, sir.—London Tatler.

A man's conversation is the mirror of his thoughts.—Chinese.

Copies of the license ordinance of the City of Jackson in pamphlet form may be had at the Ledger office; price 15c. each.

### A Vital Point

The most delicate part of a baby is its bowels. Every ailment that it suffers with attacks the bowels also endangering in most cases the life of the infant. McGee's Baby Elixir cures diarrhoea, dysentery and all derangements of the stomach or bowels. Sold by Kuster's City Pharmacy.

### The Modesty of Women

Naturally makes them shrink from the indelicate questions, the obnoxious examinations, and unpleasant local treatments, which some physicians consider essential in the treatment of diseases of women. Yet, if help can be had, it is better to submit to this ordeal than let the disease grow and spread. The trouble is that so often the woman undergoes all the annoyance and shame for nothing. Thousands of women who have been cured by Dr. Pierce's Favorite Prescription write in appreciation of the cure which dispels with the examinations and local treatments. There is no other medicine so sure and safe for delicate women as "Favorite Prescription." It cures debilitating drains, irregularity and female weakness. It always helps. It almost always cures. It is strictly non-alcoholic, non-secret, all its ingredients being printed on its bottle-wrapper; contains no deleterious or habit-forming drugs, and every native medicinal root entering into its composition has the full endorsement of those most eminent in the several schools of medical practice. Some of these numerous and strongest of professional endorsements of its ingredients, will be found in a pamphlet wrapped around the bottle, also in a booklet mailed free on request, by Dr. R. V. Pierce, of Buffalo, N. Y. These professional endorsements should have far more weight than any amount of the ordinary lay, or non-professional testimonials.

The most intelligent women now-a-days insist on knowing what they take as medicine instead of opening their mouths like a lot of young birds and gulping down whatever is offered them. "Favorite Prescription" is of known composition. It makes weak women strong and sick women well.

Dr. Pierce's Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send to Dr. R. V. Pierce, Buffalo, N. Y., 21 one-cent stamps for paper-covered, or 31 stamps for cloth-bound. If sick consult the Doctor, free of charge by letter. All such communications are held sacredly confidential.

Dr. Pierce's Pleasant Pellets invigorate and regulate stomach, liver and bowels.

### Real Estate Wanted.

Wanted.—Would like to hear at once from owner having good medium size farm or small business for sale in any good prosperous locality. Please give price and description and reason for selling. State when possession can be had. No agents need reply. Address Lock Drawer 984, Rochester, N. Y.

### College of Notre Dame MARYSVILLE, CALIFORNIA

Boarding and day school conducted by the Sisters of Notre Dame (Nun). Founded in 1856.

The curriculum embraces all the branches of a solid English education. Preparatory and advanced courses in art, language, and music.

## FROM OUR CORRESPONDENTS

### JACKSON VALLEY.

June 20—Mrs Nagel and son, and Miss Ives, of Livermore, are visiting their aunt and uncle, Mr and Mrs A. C. Miner.

Miss Annie Burris and Mrs Miner, spent a few days of last week in Lodi and Stockton.

Joe Murphy of Chico, is visiting with his aunt, Mrs H. D. Burris.

Mr and Mrs Shelbourn are visiting with their daughter, Mrs L. Bamert, in Julian district.

Miss Edna Lowry spent Saturday and Sunday with relatives in Sutter Creek.

Mrs Whipple, who has been in the valley for some time, returned to her home in Clements Sunday.

Mrs E. Diebold and daughter, Mrs S. Kidd, spent Sunday in Julian district.

Mrs Julia Harlan and friend, Mr Deacon of Sutter Creek, spent Saturday and Sunday with Mrs J. Kidd.

Frank Foster of Julian district, spent Friday with relatives in the valley.

Mr Miner's mother, Mrs Flaunders, of Lockeford, is spending a few days in the valley.

Miss E. Cook, who has been at work in Stockton for some time past, returned home last evening. Pansy.

### LANCHA PLANA.

From Stockton Record.

June 17.—In a friendly game of baseball at Wallace Sunday, the 14th, Ernest Gooding of Julian district, was made the object of a most cowardly attack under the guise of playing "fair ball," and by which he sustained very severe injuries. It seems that in the early part of the game, some ill feeling was engendered by the unjust decision of the umpire from Lockeford. After a change of umpire was made one of the Lockeford nine resorted to the tactics of a university football thug, and leaving his station, ran full force to meet Gooding, and thrusting his banded knee forward, threw Mr Gooding to the ground, breaking two ribs, one of which punctured his lungs, causing injuries that may yet prove very serious. Mr Gooding, who is a respected member of the Julian district, has the sympathy of all fair-minded neighbors and citizens of Wallace and vicinity. Indignation runs high among the injured man's many friends. It is needless to state that the Lockeford nine won the game.

Local people are very glad, indeed, to announce that J. B. Pardoe graduated from the grammar grades above everyone else in the county. This is quite an honor for Mr Pardoe and his teacher, Miss Mabel Wilson of Lodi, who so ably assisted him. He averaged 95½ per cent.

A novel sight was witnessed by the people of this place Saturday last, when an automobile arrived in town on its way to Jackson. The "natives" here have the pleasure of witnessing such a sight about once a year.

Mr Haney, late of the Julian district, shipped his crop of last year's almonds Monday. Four tons were shipped. It is stated that nearly \$200 was lost by holding the crop too long.

H. Townsend and friend of Valley Spring, were visitors at the D. B. Pardoe ranch last week.

Haying is still in progress here and the grain outlook is much better than at first reported.

R. C. Pardoe and men leave Wednesday for the mountains with their cattle. Feed is quite good on the range now. Miss Dolling of West Point is at the Pardoe ranch.

Miss Mildred Baird has been sworn in as the new deputy on the Lancha Plana and Wallace stage line, and handled the ribbons a couple of days this week.

### IONE.

June 23—Miss Jessie McCall, who has been attending the State Normal school at San Jose, returned home last week to spend her summer vacation with her mother.

Miss Vesta Maestretti and little brother, Jamie, went to Lodi Wednesday for a visit with relatives.

Last Tuesday evening Ione Circle C. F. of A. gave an enjoyable reception to their delegates Miss Grace Miller and Mrs C. C. Fairchilds, who have just returned from their trip to the grand lodge. There were between thirty and forty present, and the evening was spent in playing various games and enjoying selections from a graphophone. About twelve o'clock refreshment consisting of ice cream and cake were served, after which the strains of "Home Sweet Home" were wafted on the breeze, and every one bade each other good night and departed for their homes.

Mr O'Neil and Mr Fortner, who were hurt at the time of the cave at the brick yards, are now able to be about the streets again with the aid of crutches.

A number of Odd Fellows and

Rebekahs of Ione went to Drytown yesterday, to attend the funeral of the late Geo. Schneider.

Geo. J. Yager and daughter Eunice, visited friends and relatives in Sacramento last week. Mr Yager's mother accompanied them back, and will visit in this vicinity for a while.

Miss Lottie Miller of Jackson, is home for a couple of weeks' vacation with the home folks.

Miss Mayme Hornburger, who has been visiting her aunt, Mrs C. Schoendorf, left Wednesday for her home in Amador.

M. Bacon is quite sick at his home at Clarkston with appendicitis.

Ioneite.

### SUTTER CREEK.

June 25—Miss Pearl Tanner came up from Stockton Saturday, where she has been attending business college, to visit with her mother and family for a short time.

Mrs Ben Whitfield and family left for Winthrop, Shasta county, last Friday to join her husband at that place.

Dr. and Mrs Lynch of Amador City, were visiting relatives in Sutter last Sunday.

Mrs Jack Thomas left Monday for Grass Valley, to join her husband, who went there a short time previous, and is employed in one of the mines at that place.

Mr and Mrs Thomas Frakes, aged pioneers, were the recipients of many congratulations and tokens of love and esteem last Sunday afternoon and evening, it being the fiftieth anniversary of their wedding, the first golden wedding celebrated in this town. The house was open to friends, who kept going and coming. Refreshment were served during the afternoon and quite late in the evening, and it was a most happy and enjoyable occasion spent by the guests and the aged couple and family. Mr and Mrs Frakes came to this town in 1862—leaving the Eastern States in 1852, living in El Dorado and Volcano until coming to this place, and have resided here ever since.

Excelsior Rebekah Lodge I. O. O. F. elected officers last Wednesday night as follows: Janette Lehmann, noble grand; Emma Perkins, vice grand; Elizabeth Jones, recording secretary; Martha Smith, treasurer.

Miss Emma Waechter went to Oakland Saturday, to visit indefinitely with her sister, Miss Mae.

Mrs F. Frothingham of San Francisco, and George Gorman of Sacramento, who were here to attend the funeral of their brother, John Gorman, returned to their homes last Monday.

Mrs Bayless C. Clark, left Wednesday morning for a brief visit with friends in Oakland.

Mrs H. Morris and son of Napa, after a pleasant visit here with friends, returned to their home Wednesday.

Miss Pearl Richards of Stockton, is here visiting relatives and friends.

Mrs John Cornish left for Grass Valley Wednesday, and will remain indefinitely visiting with relatives.

George C. Schneider aged 49, died at Goodman's hospital Monday afternoon, after an operation for cancer of the stomach. The local order of I. O. O. F. took charge of the remains, he being a member of the Ione lodge, services were held in I. O. O. F. hall Wednesday afternoon. Interment in Drytown cemetery. The deceased was unmarried and was an uncle to Chris Meiss of Jackson.

Miss Annie Ivancovich, a young lady 15 years and 10 months of age, and a native of Austria, died in Amador City Tuesday the 20th inst., after an illness of several months caused by heart disease and dropsy. Her parents and family reside in Sacramento, the young lady coming to Amador some time previous, staying with friends for the benefit of her health. The remains were brought to Sutter and shipped by undertaker Daneri to Sacramento Thursday morning for interment.

Medames Alex Menchul, Liston and Miss Rose Hodges, were visitors at the Bay State mine in Plymouth last Tuesday.

J. Daneri, the undertaker, leaves Friday morning on a business visit to San Francisco, he will return Sunday.

Henry Daneri, returns to his home in Oakland this Friday, after a short visit here with relatives.

Dr. E. D. McCreary will entertain all those desirous of listening to a good lecture by a good speaker at the M. E. church Thursday evening the 2nd inst. by a free lecture, entitled "Our national greatness."

Sutterite.

### The Big Head

is of two kinds—conceit and the big head that comes from a sick, headache. Does your head ever feel like a gourd and your brain feel loose and sore? You can cure it in no time by acting on your liver with Ballard's Herbine. Isn't it worth trying for the absolute and certain relief you'll get? Sold by Kuhser's City Pharmacy.

### CASTORIA.

The Kind You Have Always Bought Bears the Signature of

### A Hair Raising Experience.

D. Barke of Plymouth, passed through an experience Wednesday that does not fall to the lot of many people, and one which he will remember all his life. An eighteen inch water pipe, which runs about a mile or two from Plymouth, had become choked with rubbish so that only part of the water could pass through, while the rest of it escaped through an opening caused by one of the joints parting. He had driven out there in his buggy to clean the pipe, and had reached down into the opening to pull the rubbish out. As he loosened it the water rushed through with increased force bringing the two ends of pipes together, catching his arm as in a vice close up to the shoulder. He realized that if he could not get something between the two ends in a few moments that he would lose his arm. With the free arm he reached down and took off his shoes and placed them in the opening in such a way that they bore most of the weight, though the pressure on his arm even then was great. Then he set to work to get loose, but it seemed all in vain, for the ragged edges of the pipe held him fast, tearing the flesh with every move that he made. To stop the flow of blood he took the strings from his shoes and bound them around his arm as tightly as possible. Several times he felt as though he could stand it no longer, but the water escaping from the pipe and flying all over him kept him from fainting. He tried all kinds of schemes to get help—calling at the top of his voice, beating on the pipe with rocks, and even tried to set fire to the grass around his feet, but the water had soaked his matches so that none of them would light. He finally became desperate and reached for his knife, intending to cut his arm off below where it was bound, but it was not in his pocket. It was a little after eight in the morning when he was caught, but it was 4:30 in the afternoon when he finally succeeded in getting loose, and then only by working his arm back and forth, cutting the flesh to the bone from close to the shoulder to below the elbow, where it would slip through easily. As soon as he was loose he drove to town, where Dr. Norman dressed the wounds. The bone was not broken, and it is not supposed that he will be crippled.

### The Fourth in Plymouth.

Plymouth is the only town in the county that is making preparations to celebrate the coming Fourth of July in an elaborate manner. The citizens there have taken the matter in hand in earnest, and are leaving nothing undone to insure the complete success of the undertaking. A two day's fete is announced by advertisement appearing on our first page. There will be literary and musical exercises, a splendid amusement program in the afternoon, and a ball in the evening. On the second day interesting racing events are to take place. Every one wishing to enjoy a good time on the fourth should head for Plymouth on that day.

### BORN.

JURASH.—In Jackson, June 24, 1908, to the wife of Nick Jurash, a daughter.

DONEY.—In San Francisco, June 9, 1908, to the wife of John Doney (nee Lettie Trudgeon), a son.

KELLEY.—At Quartz Mountain, near Amador City, June, 12 1908, to John T. Kelley and wife a son.

### DIED.

SCHNEIDER.—In Sutter Creek, June 22, 1908, George C. Schneider, aged 49 years.

KAHN.—In Jackson, June 19, 1908, V. Kahn, a native of Denmark, aged about 45 years.

McKEAN.—In Stockton, June 18, 1908, Sarah McKean, daughter of Mr and Mrs R. O. McKean, a native of Amador county, aged 18 years, 9 months and 18 days.

## WANTED

I want to hear from owner having

## GOOD FARM or BUSINESS

for sale, any size and any locality. Not particular about location. If you want cash for your farm or business it will pay you to write me today. I only want to hear from owners who are willing to sell direct to the buyer and without paying a cent of commission to anyone. I am not a real estate agent and I don't accept properties for sale on a commission basis. Agents need not answer. If your farm or business is for sale write me at once and I will send you free full details of my new plan of putting you in touch with hundreds of people anxious to buy. I must hear from you quickly, as I have more buyers than I have properties to recommend. It costs you nothing to write to me and I may have someone who wants your place and will pay your full price. In writing give price and description and state how soon possession can be had. Address L. DARBYSHIRE, Drawer 984 Rochester, N. Y.

## WHAT WE DO

We loan our money on Real Estate only, valued at twice the amount of our loan. In addition to this double security, we further protect our depositors by a Paid Up Capital and Surplus of

\$375,000.00.

We pay the taxes on your deposits.

We pay 3 per cent and 4 per cent dividends semi-annually.

We are under the state law.

### LOCAL NEWS

P. B. Aiken went to San Francisco last Saturday on business, and returned Tuesday evening.

Miss Lottie Miller, who has been employed at the National hotel, left Saturday morning for her home in Ione. From there she will go to Stockton, where she will spend a couple of weeks before returning to Jackson.

Miss Cora Wigglesworth, who has been teaching school in Lodi, returned to her home here Sunday to spend her vacation. She has resigned her position as teacher.

Miss Yoto, who has been visiting in Stockton and San Francisco for the past three weeks, returned last Sunday.

Mrs F. M. Farwell and son, who have been in Oakland for a short time, were passengers on Sunday evening's stage, and immediately went to their home at Butte City.

Ed. Delahide, who has been employed for the past couple of months as an accountant at the copper mine at Campo Seco, returned Saturday and expects to remain. He is now working in the nickelodeon.

After spending a couple of weeks with relatives in Oakdale and San Francisco, Dr. J. D. Fogarty returned Monday evening. Before going below he spent about three weeks in Mokelumne Hill and Paloma on business. Dr. Martin left Tuesday morning for Volcano, where he will stay for a week, and then go to West Point.

Misses Margaret and Mary MacDonald came up from Oakland Sunday, on a brief visit to Mrs Dwyer and family.

Miss Eunice Going, who has been attending high school in Los Gatos the past term, returned home Monday evening, to spend the summer vacation. She was accompanied by her cousin, Miss Irene Hewitt, of Los Gatos, who will spend a few weeks with relatives here.

Two Chinamen in the Louvre restaurant were fined in the recorder's court a few days ago for discharging firearms within the city limits. One settled with a payment of ten dollars, the other, a boy, got off with five dollars.

Have you an electric door bell? Have one installed; they're handy. Call up Main 2.

John Fontenrose, who has been employed at Electra, left Tuesday for Oakland and San Francisco, where he will spend his vacation of a couple of weeks.

F. W. Ruhser, father of the local druggist, and Mrs W. F. Ruhser, his sister-in-law, who spent a few days in Jackson, returned Saturday to their home in San Francisco.

Miss Emma Boardman returned Monday from Lodi, where she had been one of the grand president's party, who were guests at the home of Mrs M. Stein of that city. From there she went to San Francisco and spent a couple of days.

M. L. Smith Notary Public and Stenographer, Court St., Jackson, Telephone Black 413.

Fred Eudey, accompanied by his attorney A. Caminetti, left for Niles and San Francisco Sunday morning, on business connected with the affairs of the Sutter Creek bank. It is understood that the prospect of getting the affairs out of the receiver's hands, and into the hands of the assignee of the depositors, is waning. The depositors begin to realize this themselves, and doubts are entertained whether the arrangement at one time contemplated would really be for their interest.

J. F. Wilson, Dentist. Hours 9 a. m. to 5 p. m. Phone—Office, black 444; residence, Black 394; Jackson.

At the social given last Thursday evening by the Ladies' Aid of the Methodist church the receipts for the evening amounted to \$112.85, while the expenses were \$19.85, leaving a balance of \$93, which amount will be used for the benefit of the church. Several articles, such as children's wearing apparel, were left over; they have been placed in the hands of Mrs G. W. Brown for disposal.

R. S. Rainsford, superintendent of the Argonaut mine, and W. F. Detert, of the Zeila mine, went to San Francisco Wednesday on business, and will probably return tomorrow.

Joseph Glukfeld, of the Red Front store, was a passenger Wednesday morning for San Francisco, where he will spend a couple of days on business matters.

V. Marovich, who recently came from San Francisco, has opened a shoemaking shop in L. Radovich's saloon at the Main street bridge, and is prepared to do all kinds of shoe repairing and making, cheaper than any one else in that line.

Fred Lemoin was to have taken his nephew, Berthal Lemoin, to the Masonic home at Decoto the first part of the week, but he received word not to come for a few days, that there had been a case of scarlet fever in the ward in which the boy would have to stay. It will doubtless be some days before they notify him that it will be safe to bring the boy.

Miss Lida Podesta left Wednesday morning for San Francisco on a visit to her sister.

Mrs H. Leam and three children were passengers on the outgoing stage Wednesday morning.

Mrs L. Vogel left Monday for Eureka, Humboldt county, to visit for a month or more with relatives.

Mrs C. E. Olver and children went to Sacramento Wednesday, where she will stay for a couple of weeks visiting with her mother.

Early Tuesday morning Charles Calvin was on his way from Pine Grove to Jackson. When near the old Wiley place he saw three deer jump out from an alfalfa patch into the roadway. It was about five o'clock.

W. H. Pettis, engaged in the loaning and investment business, has been here for several days from Oakland. The tightness of the money market around San Francisco has led the large enterprises on the lookout for money to seek it in the country, where there is more idle money than in the big cities.

Theodore Crocker returned Wednesday evening from Wonder, Nev., after being away less than a month. He reports everything very quiet around the mining camps of Nevada. The mines are cutting down the number of employees, and many running full blast a year ago are now idle. The boom has dropped out of the business for the time being.

Kirkwoods cattle that left for the mountain ranges in the vicinity of Silver Lake, were delayed a few days on the way up. They got into a storm of rain with some snow above Ham's station. It was reported in town that they were unable to get through on account of the heavy snow. This, however, was an exaggeration. After resting a day or two, which was arranged before hand, they went on without any trouble to their own range in Alpine county.

Ledger & Chicago Inter-Ocean, \$2.50

George Harris, who has been confined to his bed for the past number of weeks with typhoid fever, was out of doors for the first time on Tuesday.

Mrs Steckel of the Gwin mine came up the first of the week and has been stopping at the National hotel. Wednesday morning Dr. Gail performed an operation upon her, through which she passed successfully. Miss Winter of Ione has been acting as nurse.

Mrs Troyan returned Tuesday from San Jose, where she has been in search of a residence for herself and family. They will leave Sunday for their new home. Their furniture was shipped this morning.

John Nee and family will leave in a few days for Sacramento, where they will make their home in the future. They went to Amador City yesterday to spend a couple of days with relatives.

A. W. Sutherland, just graduated from the dental department of the State University, passed a successful examination before the state board of dental examiners this week, and is now fully authorized to practice dentistry. He is a son of Mrs Dr. Endicott, and came up Wednesday evening, and will probably locate here. Dr. Lessley, also just graduated in the dentistry line, came up with him for a short visit.

The Peterser vaudeville company played in Love's hall for the last four nights to fair houses. They gave a social dance last evening. In connection with the show, they are introducing an electric belt.

A marriage license was issued last Saturday to John Sandretto and Catherine Vacca, both of Fosteria.

John Vicanovich, a young Austrian, died in the county hospital on the 24th instant of consumption. It is said that he loaned Koyovich, the Austrian boarding-house keeper and butcher, who recently skipped out to parts unknown to avoid his creditors, about \$160, and that the loss of this money preyed upon his mind and hastened the end.

Fred Eudey, receiver of the Sutter Creek bank, returned from San Francisco Thursday. There are no new developments, and he is proceeding to close up the affairs.

W. H. Smith of San Francisco, has just decided to the Ziegner Gold Mines Company, incorporated under the laws of the state of Nevada the N. W. 1/4 S. E. 1/4 of 35-8-10, and all the mining machinery and improvements on the property. The price paid by the mining company was \$50,000. Some years ago \$12,000 was paid for this same forty acres to the Eastons, who owned the land, by the Plymouth Development Company.

Last Sunday night the stage did not get in until about 9:30, instead of a little after five as it should. On the trip from Ione to Galt in the morning something happened to one of the cars. They pulled into Galt without it. This was near Conleys. Men were set to work to fix the car, but it was a number of hours before the track could be cleared.

David Wilson, father of J. F. Wilson, the dentist, came up from San Francisco last Sunday, and left Tuesday morning for Spokane, Washington.

### Sutter Creek Bank.

The depositors' committee of the Sutter Creek State Bank held a meeting last Saturday to discuss affairs. I. P. Allen and Jackson Dennis were both present, and told the members of the committee and the rest of the depositors present just what they intended to do. It came out that most of the depositors had given powers of attorney to the committee, but had not given them the privilege of turning them over to someone else. Allen stated that he had nearly all the creditors signed up, but that he could do nothing until he was certain that the agreements he has would hold when turned over to another party. The matter was referred to Attorney Monroe of San Francisco, who is still acting as attorney for the depositors committee.

### Death of A Valley Pioneer.

After a long illness of Bright's disease, Ralph Lucas, a pioneer resident of Jackson Valley, passed away at his home in Julian district on June 21st, at the advanced aged of 83 years and 4 months. Deceased was born in Kentucky, and emigrated to this state from Missouri in 1856. He first settled in Lancha Plana, then a bustling mining town, and lived there for four years, during which time he was married, and the first child, J. L. Lucas, was born. The family then moved a short distance down the river, where he cultivated one of the most thrifty orchards to be found in that region, noted for its fine fruit and vegetable gardens. He leaves a sister in Missouri, the sole surviving member of a large family. Besides his widow, he leaves six children, and nine grandchildren. The children are J. L. Lucas of Lancha Plana; Ralph and George Lucas, of Clements; James Lucas of Jackson Valley; Mrs Ellen Smallfield of Stockton, and Mrs Sarah Douglass of Fort Bragg.

### DOCUMENTS RECORDED.

The following instruments have been filed for record in the recorder's office since our last report. We publish a complete list of documents recorded, and must decline to accede to any request to suppress any document from these columns. Don't ask us to do so.

Deeds.—W. H. Smith to Ziegner Gold Mines Co., the NW 1/4 of SE 1/4 35-8-10, \$50,000 together with mining improvements.

S. C. and Emily J. Chaney to W. H. and Minnie Blakley, 2 1/2 acres below Ione.

Bond for Deed.—Fanny Cassino and Sacramento Cassino agree to deed to John U. Lofstad for the sum of \$2500, of which \$1000 has been paid, before June 13, 1910, the Mayflower quartz mine in Volcano mining district.

Trust Deed.—C. D. Chapman to A. Ginochio and C. L. Culbert as trustees for the Bank of Amador County, lots 29 and 30 in block 2 of Jackson, to secure a note for \$1200.

Certificates of Redemption.—Wm. Woolford, \$38.27 delinquent taxes 1902 on 40 acres in 35-8-11, 80 acres in 36-8-11, 40 acres in 1-7-11, and 40 acres in 2-7-11.

M. King \$39.50 delinquent taxes 1906 on two buildings located on grant lands, and personal property.

Mortgages.—John Bezzi and wife to Anton Buzolich, lot 12 block 1 of Sutter Creek, to secure a note for \$100, one year with interest at 7 per cent.

C. C. Prouty to James Cook, the Ione Brewery lot, and lot formerly owned by Annie Netze, to secure a note for \$1500, one year with interest at 8 per cent.

W. W. Plummer to G. Lintillac, 80 acres in 7-5-11, 80 acres in 18-5-11, 80 acres in 12-5-10, to secure a note for \$900 for two years with interest at 7 per cent.

John A. McIntire to Sutter Creek State Bank, lot 1 block 17 in Sutter Creek known as the McIntire building, to secure a note for \$500 from Nov. 19, 1906.

Abstract of Judgment.—A. W. Conners vs. Frank Simcich. G. M. Steele, justice of the peace in Elkhorn township, county of San Joaquin, certifies that the judgment in the above case was for \$244.90.

Satisfaction of Mortgage.—Annie Netze to C. C. Prouty sr.

Gorman et al to Chapman.

Ellis to Hartman.

Ellis to Plummer.

Location Notices—Eugene Zimmerman et al of the Buster placer claim in Lancha Plana mining district.

Constipation causes headache, nausea, dizziness, languor, heart palpitation. Drastic physics gripe, sicken, weaken the bowels and don't cure. Doan's Regulets act gently and cure constipation. 25 cents. Ask your druggist.

### Brought From Insane Hospital.

J. D. Burnham, supervisor of the guards at the Stockton Insane Hospital, came up from there Monday, and brought with him Elijah Laity, whom he placed in the county hospital here. According to an enactment of the last legislature, persons who were sent to the state hospital because of insanity, and have recovered mentally but not physically, must be returned to the county from which they were brought and placed in the county hospital as the ward of the county. Such is the case of Laity, who had been brought to the county hospital from Ione, and while there had lost his mind. He was taken to Stockton a couple of years ago, and has practically recovered, though he is still unable to get around, being over eighty years of age and badly crippled. Mr Burnham returned to Stockton on Tuesday.

### Assessor's Notice.

Road and Poll Tax are now due and payable, and will become delinquent July 1st, and thereafter will be \$3 each.

Personal property taxes unpaid must be paid at once. If not paid the property is now subject to seizure and sale for said taxes.

Payment must be made to undersigned or deputy.

CLARENCE E. JARVIS, Assessor.

### Grass Fire Alarms People.

Wednesday afternoon about three o'clock an alarm of fire was turned in, and the word was excitedly passed around that Marre's boarding and lodging house on Broadway was afire. But when the hose cart arrived there within a few minutes after the alarm had been turned in, it was found to be only a grass fire, which had started next to the road and near Marre's house. It spread in a few minutes, covering the entire hill with flames, but the wind at the time carried it away from the buildings. Before it could be gotten under control, however, it had burned the fence separating the vacant field from Marre's lot for a distance of about fifty feet. Hoses from the Ziela mine were quickly put into commission and kept the fire from getting near the oil tank of that company, and from the mine buildings. As is usual at such times there was a scarcity of water, which would have been a very serious matter had there been a large fire.

PIONEER FLOUR always has been and still is the best.

## STILL IN THE FRONT

For full lines of clothing, shoes, drygoods, gloves, silks, laces, embroideries, ladies' waists and ties, and corsets, all of which will be sold to the people of Amador county for less than any house in the state, taking out the expenses and express charges.

## SHOW'S CASH STORE

Sutter Creek - California

### SUPERIOR COURT PROCEEDINGS

HON. R. C. RUST, JUDGE

Estate of Edward B. O'Neill.—Lot 8 block 4 in Sutter Creek, sold to A. Gagliardo for \$15.

Estate of John Eckart.—Decree of distribution granted.

Joseph K. Klemick vs. Eugenia Klemick.—Interlocutory decree of divorce granted on the grounds of desertion.

E. J. Mott vs. Plymouth and Alpine Mining Co.—Default entered. Judgment in favor of plaintiff. This was a dispute over 5 acres in 2-7-10.

Estate of O. Zanzucchi.—Final account and petition for distribution filed; July 3 appointed for hearing.

W. G. Anderson vs. Evening Star Mining Co.—Default entered. Judgment in favor of plaintiff for \$3544.83, and costs; execution issued.

Estate of W. G. Anderson.—Order to show cause why whole estate should not be set aside for widow, July 11 set for hearing.

Kate Pitt vs. Peter Derania et al.—Action ordered dismissed and the defendant to recover \$18 costs. The trouble arose over the payment of \$200 for two years rental of 80 acres in El Dorado county, \$125 damages to the same. The suit was for \$299.99 and was taken on appeal from justice's court of township 5.

New Cases

People vs. Angelo Iacono.—Defendant accused of an assault upon James A. Postle, with intent to commit an infamous crime.

Charles Gibbert vs. Rosa L. Gibbert.—Divorce case.

### Board of Education.

The board of education held examination of applicants for grammar grade diplomas for the schools of this county. Sixteen women took the examinations, while only three men tried for certificates. Six of the applicants were from this county, the remainder being from all parts of the state. It will be a few days yet before they will know the results.

### Money in Fruit.

Some idea of the possibilities of fruit culture in this section may be obtained when we state, that from one tree growing within the city limits there has been sold this season \$20 worth of fruit, and at the time this financial result was reached the crop had not been fully gathered. The tree was well taken care of, which is necessary of course with any kind of orchard if satisfactory results are to be obtained. This serves to show what the foothills of this locality are capable of in fruit raising. And there is a ready sale for such fruit in the local market. Indeed, fully three-fourths of the fruit consumed here is grown in the valleys or outside the county.

### CASTORIA.

The Kind You Have Always Bought

### In the District Court of the United States, in and for the Northern District of California.

In the Matter of R. V. Koyovich, in bankruptcy.

Upon consideration of the petition of Rade Angelich, Tripo Koyovich, Steve Koyovich and Mitchell Spiach, that R. V. Koyovich be adjudged a bankrupt. It is ordered that R. V. Koyovich do appear at this court, as a court of bankruptcy, to be held at the United States Post Office Building, at Seventh and Market street, city and county of San Francisco, California, in the aforesaid district, on the 14th day of July, 1908, at 10 o'clock in the forenoon, and show cause, if any there be, why the prayer of said petitioners should not be granted.

And it further appearing that said petition, together with a Writ of Subpoena, cannot be personally served upon said R. V. Koyovich, for the reason that he is in hiding and cannot be found. It is ordered that service of said petition and subpoena be given by publication in the Amador Ledger a newspaper of general circulation in Jackson, California, by publishing a copy of this order and a copy of the said subpoena once a week for two consecutive weeks and that the last day of publication be ten days before said July 14th, 1908. It is further ordered that a copy of said petition and subpoena be forthwith mailed to said R. V. Koyovich at his last known residence with postage fully prepaid thereon.

Dated June 15, 1908.

(Signed) JOHN J. DEHAVEN, Judge.

Filed: June 15, 1908, at 2 o'clock and — minutes p. m.

JAS. P. BROWN, Clerk.  
By FRANCIS KRULL, Deputy Clerk.

A true copy attest:  
(Endorsed) JAS. P. Brown, Clerk.  
(Seal) By FRANCIS KRULL, Deputy Clerk.

### SUBPOENA.

In the District Court of the United States, in and for the Northern District of California.

In the Matter of R. V. Koyovich, involuntary bankrupt.

In bankruptcy No. 5702.

### SUBPOENA.

To R. V. Koyovich, greeting: For certain causes offered before the District Court of the United States of America within and for the Northern District of California, as a court of bankruptcy, we command and strictly enjoin you, laying all other matters aside and notwithstanding any excuse, that you personally appear before our said district court to be held at San Francisco, in said district, on the 14th day of July A. D., 1908, at 10 o'clock a. m., to answer to a petition filed by Rade Angelich, Tripo Koyovich, Steve Koyovich and Mitchell Spiach, in our said court, praying that you may be adjudged a bankrupt; and to do further and receive that which our said District Court shall consider in this behalf. And this you are in no wise to omit, under the pains and penalties of what may befall thereon.

Witness, the Honorable JOHN J. DEHAVEN, Judge of said court, and the seal thereof at San Francisco, this 16th day of June A. D., 1908.

JAS. P. BROWN, Clerk.  
(Seal) By FRANCIS KRULL, Deputy clerk.

## From Our Exchanges.

We acknowledge the receipt of an invitation to the golden wedding of Mr and Mrs Thomas Frakes, which will take place at their residence in this place on Sunday evening, June 21st. Mr and Mrs Frakes were married at Volcano, Amador county, just fifty years ago on the date above mentioned. Mr Frakes came to California in 1850 and located in Amador county, where he has lived continuously ever since. Mrs Frakes (nee Elizabeth Knox) came two years later. We are more than pleased to accept an invitation to the marriage anniversary of these good, sturdy people of the days of old, whose ranks are growing thinner with each succeeding year.—Record.

The Burlington mine resumed operations last Saturday with J. F. Siebel as superintendent. The work of unwatering the shaft commenced on that day and the water at present writing has been lowered to the 300 foot mark. Like the former superintendent, Frank Bernardis, Mr Siebel is a miner not of the kid-glove class, so we predict that the mine will not suffer under his management.—Record.

The Lone Fire Brick Company has 18 men in their employ and as soon as they have their other kilns finished will employ many more.—Echo.

There was a game of ball scheduled for this place Sunday last between the local nine and a team from Jackson. The manager of the home team had made all arrangements and the Jackson boys told him they would be on hand. Sunday came and no team from Jackson showed up and when asked the cause over the telephone they seemed to think it was a great joke. We rather think, however, that they got "cold feet" when they heard of the Hill boys' line up. To say the least the Jackson boys did not treat this team right, for if there was any reason that they could not keep their appointment they should so have informed the manager of the Hill team.—Calaveras Chronicle.

Frank Bernardi, Oscar Lester and Mr Siebel of Mokelumne Hill, went to Sutter Creek Wednesday to work at the Burlington mine.

Monday about noon Joseph Winter had his thigh broken in two places. He was helping in moving a heavy boiler on his son's place when he and his assistants lost control of it. His son-in-law, Mr Wild, called to him to look out, but Mr Winter could not get away in time. The boiler caught his thigh across a heavy timber with the result of breaking the bone in two places. It is a painful and serious fracture, but at last reports the patient was doing well.—Echo.

Last Friday afternoon Joseph Dufrene suffered a severe wound in his left hand by having a fractions bull pull a rope through it, at the end of which was fastened a hook. This hook caught in the palm of his hand and tore and lacerated the flesh to the bone down the thumb. Joe will have a sore hand for a couple of weeks.—Echo.

Geo. H. Salzgeber and Miss Minnie Felton were married at the home of the bride's parents Mr and Mrs C. Felton, at Stockton, Thursday, June 18, 1908. Geo. Salzgeber is the son of Mr and Mrs Geo. Salzgeber of this place, and was born and raised here. The bride is a very popular young lady of Stockton. The Echo joins with their many friends in wishing the bride and groom much happiness and prosperity.—Echo.

The little daughter of Mr and Mrs McKinney of Big Bar, is very ill at the Shaw Kauch near Murphys and but little hopes are entertained for her complete recovery. Mr McKinney was called from the Gwin mine during the past week and the worst was feared. At present writing the little one is improved slightly.—Prospect.

School superintendent Wells has just completed his census report for the year, and we gather from it the following summary: There is a falling off of 90 children from last year. The total number of families in the 56 districts of the county is 1295. There are 1314 boys between the age 5 and 17, and 1179 girls, 3 negroes and 25 Indians, making a total census list of 2521. Of these 2006 attend the public school, 25 attend private, and 490 did not attend any school. There are 713 children under 5, making a grand total of all children in the county under 17 years of age 3305.—Prospect.

James Metcalf, who was well-known throughout the county, met his death in the timber near Beach's mill at Fresh Pond Wednesday morning, being crushed by a falling tree. He was engaged in sawing through the trunk of a large tree, preparatory to felling it, and noticing some obstruction started out along the line to remove it so that the tree would not be broken up in falling, when a gust of wind toppled it over, and it caught the unfortunate timber man, killing him instantly. T. O. Hardie, the deputy coroner, was notified and went up to the mill, arriving here with the body about 7 p. m.—Mt Democrat.

(Continued from page 3)

issuance of the writ of injunction or temporary restraining order should not be issued without notice, except where irreparable injury would result from delay, in which case a speedy hearing of the case thereafter should be granted.

### American Farmer and Prosperity.

Among those whose welfare is as vital to the welfare of the whole country as that of the wage-earner is the American farmer. The prosperity of the country rests peculiarly upon the prosperity of agriculture. The republican party during the last twelve years has accomplished extraordinary work in bringing the resources of the national government to the aid of the farmer, not only in advancing agriculture itself, but in increasing the conveniences of country life. Free rural mail delivery has been established. It now reaches millions of our citizens, and we favor its extension until every community in the land receives the full benefits of the postal service.

We recognize the social and economical advantages of good country roads, maintained more and more largely at public expense and less and less at the expense of abutting owners. In this work we commend the growing practice of state aid, and we approve the efforts of the national agricultural department, by experiments and otherwise, to make clear to the public the best methods of road construction.

### Rights of Negroes.

The republican party has been for more than fifty years the consistent friend of the American negro. It gave him his freedom and citizenship; it wrote into organic law the declarations that proclaim his civil and political rights, and it believes today that his noteworthy progress in prosperity, allegiance and good citizenship has earned the respect and encouragement of the nation. We demand equal justice for all men without regard to race or color; we declare once more and without reservation for the enforcement in letter and spirit of the thirteenth, fourteenth and fifteenth amendments to the constitution, which were designed for the protection and advancement of the negro, and we condemn all devices that have for their real aim his disfranchisement, for reasons of color alone, as unfair, un-American and repugnant to the supreme law of the land.

### Natural Resources and Waterways.

We endorse the movement inaugurated by the administration for the conservation of natural resources; we approve all measures to prevent the waste of timber; we commend the work now going on for the reclamation of arid lands, and reaffirm the republican policy of the free distribution of available areas of the public domain to the landless settler. No obligation of the future is more insistent and none will result in greater blessings to posterity. In line with the splendid undertaking is the further duty, equally imperative, to enter upon a systematic improvement, upon a large and comprehensive plan, just to all portions of the country, of the waterways, harbors and great lakes, whose natural adaptability to the increasing traffic of the land is one of the greatest gifts of the beneficent providence.

### Army and Navy Efficiency.

The sixtieth congress passed many commendable acts, including the efficiency of the army and navy; making the militia of the states an integral part of the national establishment; authorizing joint maneuvers of army and militia; fortifying new naval bases and completing the construction of coal stations; instituting a female nurse corps for naval hospitals and ships, and adding two new battle-ships, ten torpedo boat destroyers, three steam colliers and eight submarines to the strength of the navy. Although at peace with the world and secure in the consciousness that the American people do not desire and will not provoke a war with any country, we nevertheless declare our unalterable devotion to a policy that will keep this republic ready at all times to defend her traditional doctrines, and assure her appropriate part in protecting permanent tranquility among the nations.

### Protection of Americans Abroad.

We commend the vigorous efforts made by the administration to protect American citizens in foreign countries, and pledge ourselves to insist upon the just and equal protection of all our citizens abroad. It is the unquestioned duty of the government to procure for all our citizens, without distinction of color, the rights of travel and sojourn in friendly countries, and we declare ourselves in favor of all proper efforts tending to that end.

### Extension of Foreign Commerce.

Under the administration of the republican party the foreign commerce of the United States has experienced a remarkable growth, until it has at present an annual valuation of approximately three billions of dollars, and gives employment to a vast amount of labor and capital, which would otherwise be idle. It has inaugurated through the recent visit of the secretary of state to South America and Mexico a new era of pan-American commerce and comity which is bringing us into close touch with our twenty sister American republics, having a common historical heritage, a republican form of government and offering us a limitless field of legitimate commercial expansion.

### Hague Arbitration Treaties.

The conspicuous contributions of American statesmanship to the great cause of international peace so signally advanced in the Hague conferences are an occasion for just pride and gratification. At the last session of the senate of the United States eleven Hague conferences were ratified and established the rights of neutral laws of war on land, restriction of submarine mines, limiting the use of force for the collection of contractual debts, governing the opening of hostilities, extending the application of the Geneva principles, and in many ways lessening the peaceful settlement of international controversy. At the same session twelve arbitration conventions with great nations were confirmed, and extradition, boundary

and neutralization treaties of supreme importance were ratified. We endorse such achievements as the highest duty people can perform and proclaim the obligation of further strengthening the bonds of friendship and good-will with all the nations of the world.

### Merchant Marine Encouraged.

We adhere to the republican doctrine of encouragement to American shipping and urge such legislation as will revive the merchant marine prestige of the country, so essential to national defense, the enlargement of foreign trade and the industrial prosperity of our own people.

### Increase of Pensions.

Another republican policy which must be ever maintained is that of liberal provision for those who have fought the country's battles and for the widows and orphans of those who have fallen. We commend the increase in the widows' pension made in the present congress and declare for a liberal administration of all pension laws to the end that the people's gratitude may grow deeper as the memories of heroic sacrifice grows more sacred with the passing years.

### Civil Service Laws.

We reaffirm our former declarations that the civil service laws, enacted, extended and enforced by the republican party, shall continue to be maintained and obeyed.

### Public Health Agencies.

We commend efforts to secure greater efficiency in national public health agencies and favor such legislation as will effect this purpose.

### Bureau of Mines and Mining.

In the interest of the great mineral industries of our country, we earnestly favor the establishment of a bureau of mines and mining.

### Our Foreign Possessions.

The American government, in republican hands, has freed Cuba, given peace and protection to Porto Rico and the Philippines under our flag, and begun the construction of the Panama canal. The conditions in Cuba have vindicated the wisdom of maintaining between Cuba and this country bonds of mutual interest, and the hope is now expressed that the Cuban people will soon be ready to assume complete sovereignty over their land.

In Porto Rico the government of the United States is meeting loyal and patriotic support; order and prosperity prevail, and the well-being of the people is in every respect promoted and conserved.

We believe that the native inhabitants of Porto Rico should be at once collectively made citizens of the United States, and that all others properly qualified under existing laws residing in said island should have the privilege of becoming naturalized. In the Philippines insurrection has been suppressed, law established and life and property made secure. Education and practical experience are there advancing the capacity of the people for government, and the policies of McKinley and Roosevelt are leading the inhabitants, step by step, to ever-increasing measure of home rule.

Time has justified the selection of the Panama route for the great isthmian canal, and even this has shown the wisdom of securing authority over the zone through which it is to be built. The work is now progressing with a rapidity beyond expectation, and already the realization of the hope of centuries has come within the vision of the near future.

New Mexico and Arizona. We favor the immediate admission of the territories of New Mexico and Arizona as states in the Union.

### A Centenary of Lincoln's Birth.

February 12, 1909, will be the one hundredth anniversary of the birth of Abraham Lincoln, an immortal spirit which every family has brightened with the receding years and whose name stands among the first of those given to the world by the great republic. We request that this centennial anniversary be celebrated throughout the confines of the National Union by all the people, and especially by the public schools, as exercises to stir the patriotism of the land.

### Democratic Incapacity.

We call the attention of the American people to the fact that none of the great measures here advocated by the republican party could be enacted under a democratic administration or under one in which a party spirit is divided. The continuance of the present policies, therefore, absolutely requires the continuance in power of that party which believes in them and which possesses the capacity to put them into operation.

### Differences Between Parties.

Beyond all platform declarations there are fundamental differences between the republican party and its chief opponent, which make the one worthy and the other unworthy of public trust.

In history the difference between democracy and republicanism is that the one stood for debased currency, the other for honest currency; the one for free silver, the other for sound money; the one for free trade, the other for protection; the one for contraction of American influence, the other for expansion; the one has been forced to abandon every position taken on the great issues before the people, the other has held and vindicated all.

In experience the difference between democracy and republicanism is that one means adversity, while the other means prosperity; one means doubt, the other means confidence and thrift.

In principle the difference between democracy and republicanism is that one stands for vacillation and timidity in government, the other for strength and purpose; one stands for obstruction; the other for construction; the other one promises, the other performs; one finds fault, the other finds work.

The present tendencies of the two parties are even more marked by inherent differences. The trend of democracy is toward socialism, while the republican party stands for a wise and regulated individualism. Socialism would destroy wealth; republicanism would prevent its abuse.

Socialism would give to each an equal right to take; republicanism would give to each an equal right to earn. Socialism would offer an equality of possession which would soon leave no one anything to possess; republicanism would give equality of opportunity which would assure to each his share of a constantly increasing sum of possessions. In line with this policy, the democratic party of today believes in government ownership, while the republican party believes in government regulation; ultimately, democracy would have the nation own the people, while republicanism would have the people own the nation.

Upon this platform of principle and purpose, reaffirming our adherence to every reasonable doctrine proclaimed since the birth of the party, we go before the country, asking the support not only of those who have acted with us heretofore, but of all our fellow citizens who, regardless of past political differences, unite in the desire to maintain the policies, perpetuate the blessings and make secure the achievements of the greater America.

### Mrs. Howe at 89.

Mrs Julia Ward Howe received many congratulations on her 89th birthday just past. The New England Women's Club gave a reception in her honor, with addresses by President Wooley of Mt. Holyoke College and other distinguished persons. In her response, Mrs Howe said;

"When I remember the cold welcome given to all the great reforms,—temperance, antislavery, woman suffrage, the higher education of women, etc.,—and when I see how largely they have now been accepted into the practical program, I feel that life is miraculous. The world is now wide awake to things which 60 years ago saints and philosophers dreamed of, but never expected to see."

At the reception at Mrs Howe's home, children, grandchildren and great grandchildren were present. The author of the Battle Hymn now has five children, eleven grandchildren and five great grandchildren,—"a complicated and increasing offspring" as Col. Higginson once called them.

### Tax Vehicles for Good Roads.

Among the other propositions for securing means to pay for good roads, the legislature is to be asked to pass a bill for taxing wagons, automobiles and probably all other vehicles, says the Stockton Independent. Such a proposition has been discussed at the good roads convention and has met with favor. Many men believe there is good ground for the suggestion, for the owners of vehicles use the roads more than do others and yet the expense of making and maintaining them falls heavily upon those who own neither horses, carriages nor automobiles as upon those who do and who use and wear out the roads most. The construction and maintenance of good roads, while in the interest of the whole community, is of especial interest to the vehicle owner and many will say that he who uses the roads most should contribute most to build them and keep them in repair.

We are sorry to say that the report of the big strike in the Utica which was reported the first of the week was greatly exaggerated. At that time it was stated that from \$200,000 to \$800,000 was taken out and all sorts of stories were in the air. We are informed by Mr. Martin, that while they did come upon a bunch of beautiful looking rock, on the hanging wall, it proved to be only a small pocket, which quickly pinched out. The total value of the pocket was only a few thousand dollars. While this discovery proved a disappointment, we take back nothing we have said editorially, about the richness of this section. If it was not struck this time, it will be some day.—Prospect.

### Folger's Express.

All baggage promptly delivered. Orders strictly attended to. Folger's Express, Jackson. Mrs M. Folger, phone Black 401. Leave orders at Wells Fargo express office, Main 34.

### MUST BELIEVE IT

When Well-Known Jackson People Tell It So Plainly.

When public endorsement is made by a representative citizen of Jackson the proof is positive. You must believe it. Read this testimony. Every backache sufferer, every man, woman or child with any kidney trouble will find profit in the reading.

Ben. Gilbert, living in Jackson, Cal., says: "I used Doan's Kidney Pills and they proved of great benefit to me. I suffered from backache for a long time and the trouble gradually grew worse in spite of the different remedies I used. I got so that I could not do my work and at night was so tired and played out that I could not sleep. A friend finally advised me to give Doan's Kidney Pills a trial and I procured a box at the City Pharmacy. I felt their good effect immediately and I continued taking them until I was cured. When ever I have felt any symptoms returning, I have used Doan's Kidney Pills and they have always given satisfactory results."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and taken no other.

## RULING WORK DONE

## AT LEDGER OFFICE

The Ledger office has recently added to its equipment a

## RULING MACHINE

The only machine of the kind in this section. It is intended to make the faint blue, red or any other color lines such as appear on blank record books, billheads, letterheads, mining reports. Such work has heretofore been sent out of the county. With this machine we are prepared to do every description of ruling work on any sized sheet up to 36 inches wide, as neatly and cheaply as the same can be done elsewhere.

We especially solicit work of this character from mining and other corporations.

A trial order solicited.

## SCIENTIFIC MISCELLANY

Reported weekly for the Ledger.

## Blasting Cartridges That Explode.—

The Earth as an Engine-Boiler.—

The World's Rain.—Scientific Research in the Factory.—Lightning's Colors.—Gauging the Complexion.

—Britain's Rats.—A Hardness Meter.

One of the serious dangers of mining is the failure of the detonator to explode the blasting charge. The unfired charge is then left in the rock, and at some later time, on being struck by a miner's tool, it explodes, killing or injuring the miner and any other persons near. A new safety cartridge is designed to prevent such accidents. A needle is fitted to a tube in one end, and after the hole is rammed this needle is withdrawn and the detonator is inserted in its place, the charge being then fired electrically in the usual way. When a cartridge fails to explode, it is not left in the rock. The imperfect detonator is withdrawn, a new one is inserted in its place, and the charge is then fired. Though specially adapted for coal-mining, this invention is expected to be a valuable safeguard in general blasting operations.

Industrial power from dormant volcanoes is believed by an Italian engineer to be a simple and practical matter, which he expects to undertake on a large scale. He has made prolonged and careful observations of solfataras, and has found that the steam, has varied but very slightly in quantity during a period of ten years or more, and has scarcely changed in temperature. The steam rises to heights of 30 to 80 feet, the temperature ranging from 250 degrees to 280 degrees F.

The rainfall of the continents, after long collecting of records, has been estimated to average 30 inches a year. Ocean measurements are difficult, but after considering all known facts, Fritzsche has now concluded that the entire earth's surface has a mean annual rainfall of 36 inches. This means a total fall of 883 million metric tons of water every minute.

Modern industry depends upon science to a degree that is not easy to estimate, but a suggestive hint was given in a recent address by C. E. Skinner, of the research department of the Westinghouse Electric and Manufacturing Company. The investigation of the properties of materials is probably the most important commercial research. A large factory uses a great variety of materials, the classes employed by the Westinghouse Company exceeding 500, and the entire resources of physics and chemistry are drawn upon to show what they will do. New tests are often devised to determine special properties, as in the cases of metallic filament lamps and alloy steels. Other scientific research of importance is that applied to developing processes of manufacture and new compositions for special work, studying the physical laws—aside from the properties of materials—connected with designs, the testing of machines, and the examination of reputed inventions.

For five years a tabulated record of the colors of lightning has been kept at Epsom, Eng., by Spencer C. Russell, and he has made 57 observations of forked lightning in thunderstorms and 78 observations of sheet lightning. Great diversity in color has been shown. Red has been commonest in forked lightning, with blue closely following, and orange and green least frequent, and white is seen oftenest in sheet lightning, red and yellow coming next. Hall usually comes in a thunderstorm with blue lightning.

The color of the hair, eyes and skin is measured by a new instrument—a simplified Lovibond tintometer—designed by J. Gray. The observer looks at the object under test through a tube, and interposes Lovibond's standard color glasses in front of a white surface at one side of the aperture until the glasses transmit a color exactly corresponding to that of the hair, eyes or skin. The exact composition of the color is then obtained from the readings on the standard glasses.

The war against rats is being waged vigorously in Great Britain, where the annual damage they cause is variously estimated at amounts ranging from ten to fifteen million pounds sterling. Potatoes infected with a tasteless germ are placed within reach, and this germ—harmless to man—is expected to cause a rapid decrease of the rodents by spreading a fatal disease among them. As a further step the society for the destruction of vermin seeks to set a price on the animals' heads, having offered a prize of ten guineas and a diploma for the best method of mak-

ing rat-skins commercially useful.

Taking the London and India docks as an example of the seriousness of the plague, it is stated that each of the 27 sheds stands on an acre of ground and is estimated to harbor 2,000 rats under its floors making a total rodent population of 54,000 for these docks. Each rat is charged with damage of at least a farthing a day, giving a total yearly loss of more than ten thousand pounds.

A novel device for measuring the hardness of metals is called the scleroscope by Albert F. Shore and Dr. Paul Herould, its inventors. A steel ball weighing 40 grains, made extremely hard by a special process, is enclosed in a glass tube, and the hardness is indicated by the rebound as the ball is dropped on the metal under test. A scale measures the height of rebound. On this scale 100 is the average hardness for carbon steel, and proves to be the safety limit for steel tools after reheating and tempering. The instrument is valuable in making tools of standard hardness.

Lead-wool consists of pure lead cut into fine strips by machinery, and is put up in pound-skeins of yard-long threads. For making tight joints it is simply laid in the joint socket and pounded in with a caulking tool. It welds into a solid mass, filling every interstice, and it ensures more thorough work than results from using molten lead.

State Controller Nye has made an apportionment of the forest reserve fund to counties in which reserves are located and the amount will be sent to the auditors of each of the counties. The fund amounts to \$16,052.24, while last year it was \$8,183.61. When this amount awarded by the controller is received by the auditor of the counties he will apportion one-half of it to the common school fund and one-half to the road fund.

## A Wreck

is the only fit description for the man or woman who is crippled with rheumatism. Just a few rheumatic twinges may be the forerunner of a severe attack—stop the trouble at the start with Ballard's Snow Liniment. Cures the rheumatism and all pain. Price 25c, 50c and \$1. Sold by Rulmer's City Pharmacy.

## Animals at Play.

Cats delight in racing about, but not to often, I think, in circles, as dogs do. They prefer straight lines and sharp turns with the genuine goat jump. This sudden flight into the air, which appears to take place without the animal's knowledge or intention, cannot here be preparatory to life in the mountains, but the cat finds the high jump very useful, not only in pouncing on its prey, but in escaping its hereditary enemy. Brehm records a movement play of young chamois. When in summer the young chamois climb up to the perpetual snow they delight to play on it. They throw themselves in a crouching position on the upper end of a steep snow covered incline, work all four legs with a swimming motion to get a start and then slide down on the surface of the snow, often traversing a distance of from 100 to 150 meters in this way, while the snow flies up and covers them with a fine powder. Arrived at the bottom, they spring to their feet and slowly clamber up again the distance they have slid down. —"The Play of Animals," by Karl Groos.

## The Ananias Story.

Go to church and hear the pastor, in his pulpit large and wide, tell about the dread disaster that overhauled the man who lied. It was Colonel Ananias, who in days long dead and gone, shocked his neighbors (who were pious) when he put the truth in pawn. Ah, he took the truth and hauled it through the clinders and the slack, and he slugged it, and he mauled it, and he split it up the back; so some bears came up and ate him, at the prophet's stern command, and the generations hate him as they march adown the land. He was cast into a furnace that was full of coal and wood, and he muttered, "This will learn us" (for his grammar wasn't good.) In the Red sea's depths he wallowed, with his chariots and men, till a whale came up and swallowed him, and he felt seedy then. Let us therefore shun the fable and the foolish, futile lie; do the best that we are able, camp in heaven by and by.—Emporia Gazette.

## The Glory of New York.

What other city is there of like size which matches New York in position? It is a seaside city; the salt water laves its feet. As the traveler approaches it he thinks of Venice rising from the sea or is perhaps reminded of ancient Tyre, which "stood out in the sea as a hand from a wrist" and of which the houses were impressively tall. "Impressive" is not too indulgent a word for the skyscrapers of New York—clean faced, simple, original and audacious, they are characteristic of the land and of the people. They are not ugly concessions to utility, but a rather grand adaptation of architecture to circumstances. The ancients, harassed with dread of piracy, would not have dared to build a city like New York on the edge of a great harbor open to the sea. It is something which the modern world alone could have given us.—London Spectator.

## Work of a Burmese Bud.

Instead of a coming out party as we know it, the Burmese girl's entrance into society begins when she has her ears pierced. As soon after this as she feels inclined she selects a husband and goes to live in a home of her own. The hope is provided by the man, but it becomes his wife's as soon as they are married. All women, young and old, are addicted to the use of tobacco. The women seem to prefer the very large size black cigar. Often one meets a woman on the streets of a village with one of these huge cigars in her mouth and two or three more stuck in the holes of each ear.

## Deceitful.

"Men are queer animals," said the pessimist. "They are all more or less deceitful." "Oh, I don't believe that," replied the optimist. "I think there are plenty of people who strive to be honest. I know I do, and I don't give myself credit for being any better than the majority of men." "Then why do you ask me how my health is every time we meet and stand around and look bored if I tell you?"

## Permanent.

Bride of Some Months—My tempers you say are trying.

He—At times.

"I would not have you worn out with them. If you cared to be released from"—

"Oh, no; not at all; not a minute. I don't feel so even when I am cross. I'm no ninety day volunteer. I enlist for the war."—Life.

## Not Disappointed.

"A young friend of mine," remarked a humorist, "got married last month. He said to me the other day:

"When I married Mamie I thought she was an angel. But," he added, "I soon found out my mistake."

"Disappointed?" I asked.

"Disappointed? No!" he cried. "I found she was a good cook."

## Doubly Exciting.

"Dorothy always begins a novel in the middle."

"What's that for?"

"Why, then she has two problems to be excited over—how the story will end and how it will begin."

## A Chance.

Husband—My colleague is the most insatiable man I ever saw. He wants everything he sees. Wife—Can't you introduce our daughter to him?—London Mail.

The average man's way to economize is to quit spending money on one thing and begin to spend it on another.—New York Press.

## LOCAL EDITORIAL COLUMN.

## VICE-PRESIDENTIAL CANDIDATE.

James Schoolcraft Sherman of Utica, New York, was nominated for vice-president on the first ballot at the Chicago convention. The selection is regarded as the best possible, and will undoubtedly add great strength to the ticket, particularly in the pivotal state of New York, with 39 votes in the electoral college.

The republican nominee for vice president is the present representative in congress from the twenty-seventh district of New York, comprising the counties of Herkimer and Oneida. He was born in Utica, N. Y., October 24, 1855; received an academic and collegiate education, graduating from Hamilton college in the class of 1878; was admitted to the bar in 1880; is a practicing lawyer, also president of the Utica trust and deposit company, and president of the New Hartford canning company; has served in the following public positions: mayor of Utica, 1884; delegate to the republican national convention in 1892; chairman of New York state republican convention in 1895 and again in 1900; was chairman of the national republican congressional committee in 1906; was elected to the 50th, 51st, 53d, 54th, 55th, 56th, 57th and 58th congresses, and reelected to the 59th congress, receiving 26,657 votes, to 20,892 for W. H. Squires, democrat, 552 for F. M. Humastin, socialist democrat, and 830 for F. O. Harter, prohibitionist. Reelected to the 60th congress over his opponent on the democratic, independence league and labor ticket by a majority of 4490.

Since his nomination the candidate has suffered an acute attack of sickness, while on a visit to Ohio. During the week his condition at one time was deemed critical. He is still very ill, but it is believed the danger point has been passed, and that he will rapidly improve from now on.

Some officials seem to have loose ideas concerning the obligation of a public contract. In the city government of Jackson this disregard of a legal obligation on the part of the officials has been exemplified more than once. And the worst feature about it is that the violation has been perpetrated wilfully and designedly. Two or three months ago the contract for doing the city printing was awarded to the Ledger, as the lowest bidder. The Dispatch, owned then as now by one of the city trustees, was the defeated bidder, bidding in face of the express provision of law that no trustee shall be interested, directly or indirectly, in any city contract. The ink had barely dried on the minutes awarding the printing contract to the Ledger, when an order for election printing was sent to a print shop not only outside of the city but beyond the limits of the county. This was a violation not alone of the letter of the law, but also of the world-wide duty of loyalty to home enterprise. At the present time another example of this spirit is being paraded before the people. Printed notices are posted up around town bearing the imprint of the Dispatch office, in which George M. Huberty, as city marshal, notifies owners of dogs to pay the dog tax on or before June 15. This is a small matter, it is true. Probably it was thought so small a piece of graft that it would pass muster unnoticed. However that may be, it constitutes the most barefaced violation of the law and the printing contract that has yet occurred. Posters are among the items expressly mentioned in the schedule of articles upon which the printing contract was awarded to the Ledger. Virtually this action amounts to this so far as the official ordering and the disqualified printer doing the work are concerned: "We don't care what the law says, neither do we care what contracts are entered into by the city on the lowest bid system; we claim the right to use the public patronage for the benefit of our political favorites, and for the upbuilding of our political machine." The scheme is a bold one, but perilous. We shall see how it will pan out.

W. J. Bryan, prospective democratic candidate for president, is indulging in some adverse criticism of the republican platform. In a couple of weeks more, it is safe to assert, he will have a bigger job on his hands in trying to explain the defects of his own party platform.

## Eclipse of Sun June 28.

On Sunday, June 28, there will be a partial eclipse of the sun. The eclipse may be observed in various parts of the globe. In this state about a third of the sun's face will be obscured, the eclipse beginning at 6:20 o'clock in the morning and ending at 7:52.

The eclipse will assume different shapes as viewed from different parts of the globe. As the moon passes squarely between the earth and the sun, the phenomenon will from some view points be in nature of a ring eclipse, the moon obscuring the center of the sun and all but a small ring around the edge. If the moon were closer to the earth, the whole face of the sun would be darkened.

In this state the ring eclipse will not be seen and only about a third of the sun's surface will be eclipsed.

## Timber Land, Act June 3, 1878—

## Notice For Publication.—2179

United States Land Office, Sacramento, California, April 11, 1908.  
Notice is hereby given that in compliance with the provisions of the act of congress of June 3, 1878, entitled "An act for the sale of timber lands in the states of California, Oregon, Nevada, and Washington territory," as extended to all the public land states by act of August 4, 1892, Mable I. Frank of San Francisco, county of San Francisco state of California, has this day filed in this office her sworn statement No. 2179, for the purchase of the S W  $\frac{1}{4}$  of S E  $\frac{1}{4}$ ; E  $\frac{1}{2}$  of S W  $\frac{1}{4}$  and S W  $\frac{1}{4}$  of S W  $\frac{1}{4}$ , of section No. 13, in township No. 7 N., range No. 14 E., M. D. M., and will offer proof to show that the land sought is more valuable for its timber or stone than for agricultural purposes; and to establish his claim to said land before the register and receiver at U. S. Land Office in Sacramento, Calif., on Monday, the 22nd day of June, 1908.

She names as witnesses: Addie M. Stenler of Portland, Oregon; Hattie Spring of San Francisco, California; George C. Bruce of West Point, California; James P. Peck of Berkeley, California.

Any and all persons claiming adversely the above-described lands are requested to file their claims in this office on or before said 22nd day of June, 1908.

## Summons.

In the superior court of the state of California, in and for Amador county.  
Emma Wilton, plaintiff, vs. William Wilton, defendant.  
Action brought in the superior court of the state of California, in and for Amador county, and the complaint filed in the office of the clerk of said Amador county.

WM. G. SNYDER,  
Attorney for plaintiff.  
The people of the state of California send greeting to William Wilton defendant.

You are hereby directed to appear and answer the complaint in an action entitled as above, brought against you in the superior court of the state of California, in and for Amador county, within ten days after the service on you of this Summons—if served within this county; or within thirty days if served elsewhere.

And you are hereby notified that, unless the defendant so appears and answers, the plaintiff will take judgment for any money or damages demanded in the complaint as arising upon contract, or will apply to the court for any other relief demanded in the complaint.

Given under my hand and the seal of the superior court of the state of California, in and for Amador county, this 21st day of May A. D. 1908.

(Seal) J. R. HUBERTY, Clerk.  
July 24

## Timber Land, Act June 3, 1878—

## Notice For Publication.—2180

United States Land Office, Sacramento, California, April 11, 1908.  
Notice is hereby given that in compliance with the provisions of the act of congress of June 3, 1878, entitled "An act for the sale of timber lands in the states of California, Oregon, Nevada, and Washington Territory," as extended to all the public land states by act of August 4, 1892, Addie M. Stenler of Portland, county of Multnomo, state of Oregon, has this day filed in this office her sworn statement No. 2180, for the purchase of the S  $\frac{1}{2}$  of S E  $\frac{1}{4}$  and N E  $\frac{1}{4}$  of S E  $\frac{1}{4}$  sec. 14, and N W  $\frac{1}{4}$  of S W  $\frac{1}{4}$ , of section No. 13, in township No. 7 N., range No. 14 E., M. D. M., and will offer proof to show that the land sought is more valuable for its timber or stone than for agricultural purposes, and to establish his claim to said land before the register and receiver at U. S. Land Office in Sacramento, California, on Monday, the 22nd day of June, 1908.

She names as witnesses: Hattie Spring and Mable J. Frank of San Francisco; George C. Bruce of West Point, California; James P. Peck of Berkeley, California.

Any and all persons claiming adversely the above-described lands are requested to file their claims in this office on or before said 22nd day of June, 1908.

JOHN F. ARMSTRONG,  
ap. 17 Register.
